Course Outcome

(PROGRAMING USING C)

The course provides students with a detailed study of programming techniques using C programming language. Good programming habits, proper logical thinking, algorithm and flowchart development. writing efficient programs are taught in the course. Detailed lab exercises covering all aspects of the language are prepared.

Learning Outcome

To analyze problems efficiently and develop comprehensive logic to solve it. To develop good algorithms and flowcharts to solve problems.

To write C programs in a structured manner.

Instructions for the paper setter

The question paper will consist of three sections, Sections A. B & C. Sections A & B will have four questions each from the respective sections of the syllabus. Each question will carry 12

marks, which may be segregated into sub-parts. Section C will be compulsory with 11 short answer type questions of 02 marks each, which will cover the entire syllabus.

i. Arranging, splitting windows in MS-word ii. Perform Mail-merge in MS-word

iii. Create and run Macros in MS-Word

iv. Set the print properties of a word document

PowerPoint

Activity 1: i. Create, open, save and close a Presentation

ii. Typing, copying, moving and deleting data in presentation. iii. New Slide, understanding Slide Layout, adding and deleting slides.

Activity 2:

Formatting of data in slides:-

10
